## EXPERIENCE

**FULLSTACK DEVELOPER**  
03/2022 – Current

### CAJA MORELIA VALLADOLID MORELIA, MX

During my time as a Full stack Developer at Caja Morelia Valladolid, I have contributed to various software projects within multiple teams. Including User Interface design and APIs consumption using Vue.js for Frontend Web Development. Additionally, I have developed UI's and implemented APIs consumption for Desktop Applications using .NET and Delphi 6 technologies. In Backend Development I have programmed APIs and Web Services using .NET, following the Database First workflow. This includes coding, making of Stored Procedures (SP's), Scripts, and Database connections in SQL Server.

Furthermore, I have actively collaborated with my team, often supported or leading to immediate operational issues resolution.

Techs: VS, VSCode, C#, SQL Server, Vue.js, Delphi 6, Postman

**FRONTEND DEVELOPER**  
2017 - 2018

### DONAUMORGEN, URUAPAN, MX

As frontend Developer at the startup Donaumorgen, I focused on User Interface, Database and Cross Platform mobile Applications design, using .Net technologies, such as ASP.NET, Entity framework, Xamarin and SQL Server. Despite being a university student, I successfully managed to balance my workload, collaborating with a team to develop and implement solutions for clients.

Techs: Visual Studio, ASP.NET, Entity Framework, SQL Server, Xamarin

**BACHELOR'S DEGREE GRADUATED**  
2020

## EDUCATION

### INSTITUTO TECNOLOGICO SUPERIOR DE URUAPAN

Computer Systems Engineering
